

California State Fire Marshal National Fire Incident Reporting System

Data as of:

07/01/2009 1:56:57PM

FDID Range:

0 to No Upper Bound

Incident Date Range: 01/01/2008 to 12/31/2008

Incident Type:

111 to No Upper Bound

Detector Type:0 to No Upper Bound

Type of Detection Systems and Power Supplies

Incident Year	<u>Detector</u> <u>Type</u>	<u>Detector Power</u> <u>Supply</u>	Incident Count	Property Losses	Contents Losses	Fire Service Injuries	Fire Service Deaths	Civilian Injuries	Civilian Deaths
2008

The data contained in this report comes from the State Fire Marshal's California All Incident Reporting System (CAIRS) data warehouse. Property and contents loss figures, if included herein, are estimates only. These emergency incident statistics, including injury and death counts, are based only upon information submitted to the State Fire Marshal by participating California fire departments. Please note that apparent variations in incident counts and associated losses shown in this report may be solely due to fluctuations in the amount of data submitted to the State Fire Marshal. And while the incoming data is validated according to logical data rules, individual data elements are not always verified for accuracy.
